Subject: PMTF Catch Update #3, June 12, 2024
Date: Wednesday, June 12, 2024 8:07:12 PM

Again, catches were light across the entire transect today despite better fishing conditions (mean sea state=4 ft). I know it is difficult to hurry up and wait, but that's all we can do this early in the season.

PMTF Stock Composition Status: No change in status.

Scott and Jordan

To receive a summary of daily indexes by text message, text just the four letters “**PMTF**” to 833-612-1053. Be sure to spell PMTF correctly or it won't work. These shorter text updates go out about the time of, or shortly after the email updates go out.

NOTE: If you subscribed for PMTF text summaries last season but are not receiving them, type “**unstop**” to the same number. That will restart your messages if you used “**stop**” last season. Unless you do this, texting “PMTF” as described above will not work.
